

This book is designed not only to make you feel **uncomfortable**, but also to **question** the world we live in and finally, to **test** your **sanity**.

My intention is to **drive you insane** or at least make you **miserable**.

Reading this book could, if you allow it. This is a work of fiction, but it includes references to **actual events** in my life.

You cannot blame me for placing you in an uncomfortable setting as if you were in a psych ward. I do it so that you can feel what it's like to have **little or no control** over your **sanity**.
